*“Where students learn to maintain authorship
of their own lives”*

| The Problem

Today's First-Year Reality

Student affairs professionals are navigating a complex convergence of student needs:

- Rising **mental health concerns**
- Difficulty with **transition and independence**
- Gaps in **academic self-management**
- Fragile **sense of belonging**
- Increasing **financial pressure**

These are not isolated challenges.

Students experience them as a **single, overwhelming reality**.

When students cannot make sense of their experience, they struggle to make decisions within it.

| THE SOLUTION

Narrative Competence: A Missing Skill

Most programming provides:

- Resources
- Information
- Support systems

But students are missing a core skill:

Narrative Competence

The ability to:

- Understand their experience in real time
- Interpret challenges without self-defeating conclusions
- Make intentional, self-directed choices

An authentic story restores agency—the ability to choose, not just comply.

| THE STUDENT EXPERIENCE

Keynote: *My Story Is My Lifeline*

This student-facing keynote helps participants:

- ✓ Recognize the **five pressures of the first-year experience**
 - ✓ Normalize challenges without stigma
 - ✓ Reframe internal narratives in real time
 - ✓ Build **decision-making confidence and agency**
-

Signature Engagement Moment

Name It → Claim It → Choose It

A guided, 2-minute exercise where students:

- Identify a current challenge
- Recognize their internal narrative
- Shift toward an actionable next step

Outcome:

Students experience **immediate agency and clarity**
